Dear Cath

Re: 601/4790/8 FAQ Level 3 Certificate in Bridging Skills for Higher Education (QCF) Qualification

I am writing in support of the above qualification with Future (Awards and Qualifications) Ltd. This qualification along with the FAQ Level 4 Diploma in Associate Ambulance Practitioner (QCF) will better equip learners to enter into a HE Professional Health Education Programme at our University through a Progression Agreement.

The University of Wolverhampton, value the Future Awards and Qualifications Ltd (FAQ) qualifications, as a method of progressing learners on to the following course(s):

- Diploma of Higher Education Paramedic Science(DipHE)

Learners will be employed Student Paramedics attending the course as part of paramedic conversion. They are already employed and guaranteed a Paramedic position, subject to successful completion and HCPC (Health and Care Professions Council) registration.

We value the FAQ Level 3 Certificate in Bridging Skills for Higher Education (QCF) qualification because completion means Student Paramedics are better equipped to prepare for progression to this stage of development at our University. For example, the learner will improve essay and report writing skills, be able to research information and it will support their project management by completing this qualification. This results in a better experience for them and end outcomes for the Ambulance Service and the University.

In addition, we agree to Future (Awards and Qualifications) Ltd publishing this letter on their website to show support from the University of Wolverhampton.

If you require any further information please do not hesitate to contact me.

Yours Sincerely

Professor Linda Lang
Dean of Faculty of Education Health & Wellbeing, University of Wolverhampton
