Introduction to the Template

Transferable Roles

This template is designed to enable a common understanding and communication of transferable roles. A transferable role (TR) is a named cluster of competences and related activities that is applicable, relevant and replicable across different geographic locations in the UK.

It can be used to help define the learning and development needs for staff already working in these roles and to support the establishment of transferable roles where appropriate.

In the development of this template Skills for Health seeks to provide some consistency of approach to defining the skills and competences needed to fulfil the requirements new, hybrid, or existing transferable roles.

All transferable roles will have common or 'core' competences, plus speciality/pathway specific competences. Over time, these will be supported by appropriate national occupational standard based learning and development packages. The term 'competences' is used throughout the document. All competences are national occupational standards (NOS).

The Template

The template has a range of applications and may successfully be used by commissioners, managers, employers, and individual staff members.

In all cases the template is designed to be used as a whole. A role is composed of all components – level descriptors, national occupational standards and indicative learning and development.

Career Framework Levels and National Occupational Standards (NOS)

The Career framework, which has nine levels, is a method of describing the level of autonomy and responsibility and the kind of decision making required by a job. Level descriptors have been established through rigorous discussions and are referenced to and linked with the qualifications frameworks as well as research where available regarding what should be expected of an individual at any given level. The level descriptor is intended to be relevant to any role within the health sector both clinical and non-clinical roles.

It is important to bear in mind that the career framework levels are not intended to be coterminous with the NHS Agenda for Change banding, though there may be some similarities.

National Occupational Standards have been developed by expert groups, have undergone a rigorous nationally determined process to achieve their status and are approved for use in vocational qualifications by the UK Commission for Employment and Skills. Because of this they cannot be changed in terms of content or wording. They focus on what a person needs to be able to do, as well as what they must know and understand to work effectively. They are not in themselves levelled. Some may be more appropriate to a specific level on the career framework others will span all levels. They are all indicatively linked to the NHS Knowledge and Skills Framework.

The reference function they are listed by in the template relates to the Health Functional Map which is a method of categorising the NOS and amongst other things facilitates finding them on the data base.

Each NOS is listed by its code and title, they are all underpinned by knowledge requirements and performance criteria.

The NOS in this template are divided into the following sections:

-
- Core to the level – the core is intended to be relevant to any role in the health sector, whether it is clinical or not and therefore is broad based in terms of the NOS it contains.
 - Specific to the role
 - Facets, some roles have different facets, each made up of a group of NOS, relevant to different areas of practice
 - Locality Specific – Additional NOS (competences) may be added here.

Indicative Learning and Development

The learning and development section of the template gives an indication of the level and style of learning relevant to the role. It is very much an indication and is not a comprehensive inventory of learning available.

Some people may wish to or need to study whole qualifications - others will not. Some will need to participate in smaller 'bite sized' learning opportunities. Each individual should use the role profile to identify with their line manager what their needs are and how they will achieve them.

The Template

Level Descriptors

Definition of the Level 4 Role

People at level 4 require factual and theoretical knowledge in broad contexts within a field of work. Work is guided by standard operating procedures, protocols or systems of work, but the worker makes judgements, plans activities, contributes to service development and demonstrates self-development. They may have responsibility for supervision of some staff.

The National Occupational Standards

This section of the template has an example of a level 4 role. This example is intended to give core information for the role. The indicative learning and development are included.

Basic Information

Named Role	Edge of Care Practitioner
Area of Work	Children and Young People in the Complex Needs Pathway
Experience Required	Experience of: • working with challenging families where concerns relating to parenting and child welfare have been identified • working in the community with vulnerable families • working with adults with mental health needs and/or substance misuse difficulties and an understanding of the effect of this on the adult's ability to offer consistent and sensitive parenting. • Social work in related fields • Detailed knowledge of child development
Career Framework Level	Level 4

Scope of the Role

- The Edge of Care Worker is part of an efficient and effective delivery of support services to children, young people and their families to ensure placement stability, prevent unnecessary entry into the Looked After Children (LAC) system and rehabilitate children to their families. The role supports young people towards positive independent placements where return home is not possible
- Under direction, the Edge of Care Worker plans, implements and delivers appropriate therapeutic interventions with families of children and young people at risk of imminent breakdown.
- May be a requirement to take part in 24-hour Rota cover including evenings, weekends and bank holidays and waking nights where relevant.
- The title of this role may vary according to the service or team the role works within.

All level 4 roles will have the following common/core competences. All competences are national occupational standards (NOS)

Specific competences to the role have then been identified. Any additional competences specific to the locality should then be identified locally using the competence tools and the [health functional map](#) and added to the template using the same format.

Common/Core Competences for all Roles:

Competences common to all roles working with children and young people in the complex needs pathway
SFHCS1 Communicate with children and young people and those involved in their care
SFHCS19 Develop relationships with children and young people and those involved in their care
HSCCLD434 Advocate with and on behalf of children and young people
HSCCLD310 Promote the social and emotional wellbeing of individuals
SFHCS18 Recognise and respond to possible harm or abuse of children and young people
HSCCLD37 Promote trauma-informed practice
HSCCLD28 Support equity, diversity, inclusion and rights of individuals
HSCCLD350 Promote the physical health and mental wellbeing of children and young people
HSCCLD319 Promote the use of services and facilities
SFJCCBF3.1 Develop and sustain effective working with staff from other agencies
SFHGEN63 Act within the limits of your competence and authority

Role Specific Competences

Principles	Competence	
Communication	Communicate effectively	SFHCS1 Communicate with children and young people and those involved in their care
	Develop relationships with children	SFHCS19 Develop relationships with children, young people and those involved in their care
	Provide help for children and young people including play recovery	SFHCHS34 Provide help for children and young people to understand their health and wellbeing
	Develop relationships with individuals	SFJCCBF3.1 Develop and sustain effective working with staff from other agencies
Personal and People Development	Make use of supervision	SFHGEN36 Make use of supervision
	Mentoring/ coaching	LSI CM06 Explore clients' needs, aspirations and the support required to achieve their goals
Health, Safety and Security	Ensure your own actions reduce risks to health and safety	SFHGEN96 Maintain health, safety and security practices within a health setting
	Promote safe and effective working	SFJFJ2 Monitor the health and wellbeing of individuals who have been subject to a physical intervention
Safeguarding	Protect individuals from abuse	SFHCS18 Recognise and respond to possible harm or abuse of children and young people
		HSCCLD330 Promote the care or support planning process

Principles	Competence	
Service Improvement	Contribute to improving services	SFHCS23 Work with others to improve healthcare services for children and those involved in their care
Assessment	Assess children and young people's needs	HSCCLD35 Promote the care or support planning process
	Risk management	SFHCMG5 Work in partnership with others to promote health and wellbeing and reduce risks within settings in a defined caseload
Interventions	Work in collaboration with carers in the caring role	SFHMH11 Enable families to address issues with individual's behaviour
	Enable individuals to make health choices and decisions	SFHGEN106 Enable individuals and families to identify factors affecting, and options for, optimising their health and well-being
		SFHGEN107 Enable individuals and families to put informed choices for optimising their health and wellbeing into action
	Enable people to address issues relating to their health and well-being	HSCCLD319 Promote the use of services and facilities
		HSCCLD350 Promote the physical health and mental wellbeing of children and young people
	Deliver therapeutic activities	SFHCS13 Deliver interventions for children and young people and those involved in their care
	Refer individuals to services for treatment and care	SFHCHS99 Refer individuals to specialist sources of assistance in meeting their health care needs
		SFHAA1 Recognise problematic use of alcohol or other substances and refer individuals to services

Principles	Competence	
	Implement strategies to promote health and wellbeing	SFHCS21 Monitor the health and well-being of children and young people
	Advocacy	HSCCLD434 Advocate with and on behalf of children and young people
	Assist individuals in undertaking activities	SFHMH38 Enable people with mental health needs to choose and participate in activities that are meaningful to them
Health Promotion and Prevention	Enable children and young people to address issues relating to their health and well-being	HSCCLD319 Promote the use of services and facilities
		HSCCLD350 Promote the physical health and mental wellbeing of children and young people
		SFHAD1 Raise awareness about substances, their use and effects
	Respond to and manage challenging behaviour	HSCCLD310 Promote the social and emotional wellbeing of individuals
	Collect and validate data and information for processing	SFHHI7 Collect and validate data and information in a health context
Information Management/ Information and Communication Technology	Maintain information/record systems	SFJPA2.1 Analyse and report data
Administration, meetings and team working	Contribute to meetings	SFJAD3 Represent one's own agency at other agencies' meetings
	Contribute to the effectiveness of teams	HSCCLD330 Promote care or support packages through partnership working

Edge of Care Practitioner Level 4

Principles	Competence	
	Produce documents to an agreed specification	INSBA013 Design and produce documents
	Receive and pass on messages and information	HSCCLD338 Process decision making information
Additional competences for residential care where appropriate	Support to CYP in a residential setting	HSCCLD366 Work with children and young people to manage aspects of their lives
		HSCCLD369 Promote childcare practice in group living
	Support individuals to self- medicate	SFHCS15 Enable children and young people, and those involved in their care, to manage prescribed medication

[illegible]

Indicative Learning and Development

Transferable roles may be underpinned by a range of learning and development activities to ensure both competence and role confidence. The learning and development included within the template is by nature indicative. In some cases, it is endorsed by professional bodies and/or special interest groups and accredited by an awarding body.

Transferable role	Level 4 Edge of Care Practitioner
Formal endorsed learning	• Diploma in Children and Young People's Workforce or Diploma in Social work, or equivalent, or working towards • Good numeracy and literacy skills that are or equivalent to English/Maths GCSE A – C/ 9-4. For all roles working in the CYP Complex Needs pathway: • Level 3 Safeguarding training for children and contextual safeguarding • PREVENT • Trauma-informed/systemic practice • De-escalation • Understanding of: • professional boundaries • vicarious trauma • the complexity of the CYP pathway Other training which may be formal or informal: • IT skills • Literacy skills • Training related to vulnerabilities e.g.: • learning disabilities • working with young people in the complex needs pathway • working with challenging and vulnerable families • mental health awareness, • substance and alcohol misuse • therapeutic training • the importance of play recovery • Mentoring/coaching • Physical contact methods as required by the role • Advocacy • First Aid at Work • Record keeping • Information governance
Informal learning	As above
National Occupational Standards (competences) used	As detailed within role outline. The performance criteria and knowledge statements in each NOS will form the

	basis for the development of specific learning outcomes for each person and may be used to develop generic learning outcomes for each module/unit of learning.
Credits (including framework used)	Wherever possible learning should be credit rated to enable transferability and progression
Accreditation	Wherever possible learning should be accredited by education providers, professional bodies or similar
APEL and progression	Wherever possible learning should be transferable through APEL and should enable progression to other formal learning
Leading to registration or membership with:	

Continuing Professional Development

It is recognised that continuing professional development is an essential component to maintaining competent, safe practice at all levels of the career framework.

The following is considered the minimum required to maintain competence within this role. Learning should be active, with the impact on service delivery clearly defined and agreed between the learner and their line manager. A range of methods for capturing the impact of learning may be used e.g. learning contracts, reflective accounts, productivity measures, appraisals systems and processes.

Wherever possible learning should be accredited and/or credit rated and should focus on the needs of the individual in the role.

Statutory and Mandatory learning of particular relevance to the role	For example,	
Formal endorsed learning	Title	
	Awarding body	
	Credit	
	Level	
Informal learning	Negotiated at appraisal/performance review.	
Method of capturing impact	Annual appraisal	
Funding required	Dependent upon agreed CPD plan and negotiated locally	
Frequency required (once a year, once every two years, twice or more a year)	Annual learning needs will be identified and planned as part of the appraisal process. Specific goals will be agreed and the best method for achieving them negotiated.
