LearnSpace

Learning management and compliance solution brought to you in partnership with Totara Learn.

Innovative | Intuitive | Individual

LearnSpace

Learning management and compliance solution, based on Totara Learn.

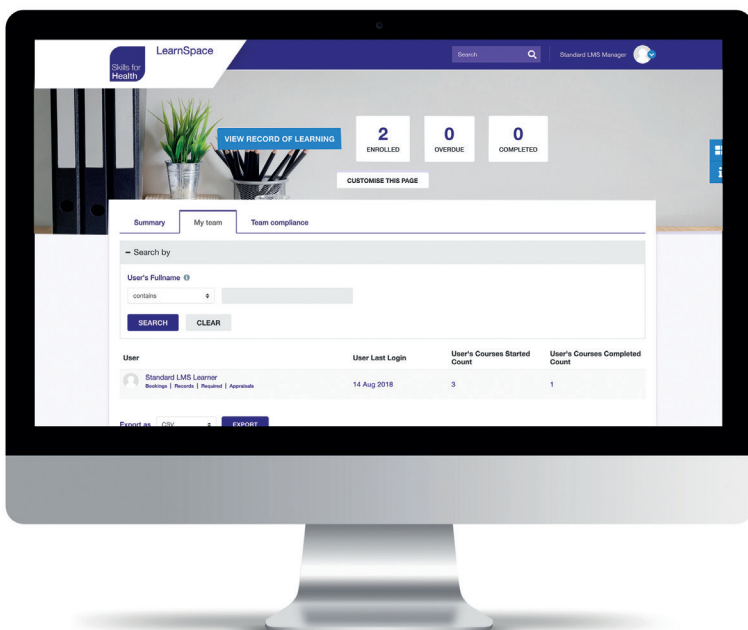

Placing a learning management solution at the heart of your learning strategy can help save time and money spent on training and enable you to successfully manage your compliance needs.

LearnSpace seamlessly integrates with a range of HR systems. It provides the tools to deliver, manage and monitor skills training for your organisation.

The intuitive interface gives users an unparalleled learning experience to easily find and complete elearning courses, whether your own or third party. Its advanced back-end functionality enables managers to develop individual learning paths, monitor usage and publish detailed compliance reports from our in-built reporting dashboard, or the option to create your own customisable reports. Our dedicated helpdesk team are also on hand to provide ongoing support and peace of mind.

We've used our knowledge and experience of the health sector to perfectly tailor LearnSpace, providing optional levels of functionality, training and support. Depending on the options you choose:

- Our team will work with you to implement LearnSpace, supporting any data migration and integration requirements.
- Our expert helpdesk will provide dedicated technical support and provide a range of user guides to take you step-by-step through every aspect of LearnSpace.
- You will have access to powerful analytics and reporting tools, designed to enable you to effectively manage compliance and training.

Customise LearnSpace to meet your needs:

1. Targeted training

Organisation and position hierarchies allow you to track specific competencies, assign learning and automatically filter reports. Assign learning to specific groups, and keep everything secure with static and dynamic audiences, making it easier to automate the learning management process and personalise the learning experience.

2. Flexible reporting

Produce accurate and up-to-date compliance reports from a range of in-built dashboards. Or create your own fully customisable compliance reports for effective learning management, which can be easily exported and shared in real-time.

3. Easy-to-use and responsive

Your users can sign-in to LearnSpace any time, any where and on all devices, while the visual theming can be fully rebranded and personalised to suit the specific needs of your audiences.

4. Themes and branding

LearnSpace can be customised to match your organisation's brand, incorporating its colours and logo for a bespoke learning experience.

5. Competency frameworks

Enable curriculum planning, learner pathways and developmental needs analysis. Link skills to employees or extended enterprise learners based on their position and organisation.

6. Seamless integration

Simplify the user experience and optimise workflows by integrating LearnSpace with your HR systems, CRM or any other platform. Single sign-on also allows for seamless integration between a range of systems.

Choosing the right LearnSpace for you

Our expert learning management and compliance team will work with you to understand your exact needs, following our five simple steps.

We're dedicated to helping organisations develop their people to reach their full potential. Our solution is designed to be stress-free and intuitive—it's easy for everyone to track training, goals and compliance, without additional admin or staff time.

With LearnSpace you can log on anytime, anywhere, and continue training when it suits you.

Our expert team will be with you every step of the way, to provide you with the support you need to make your training effective and successful.
